TIGGO 8

METICULOUSLY CRAFTED

• The 2.5K high resolution ensures a clear visual effect and high color saturation, providing users with a broader field of view and more delicate images. This ultra-narrow bezel design can enhance practicality and safety, and also adds a minimalist and sophisticated aesthetic to the cabin.

• The fourth-generation TIGGO 8, with its excellent body dimensions of 4725*1860*1705, is the perfect companion for family trips. The second and third-row seats can be folded down at will, offering up to 12 different seating layouts to meet various cargo and passenger needs.

- A comprehensive passive safety system featuring 10 airbags is equipped to safeguard every occupant in the cabin.
- The standard 540° panoramic imaging system offers a comprehensive view of the vehicle's surroundings, eliminating blind spots and enhancing driving safety and ease.
- The vehicle boasts a soft-wrapped area coverage up to 78.9%, this covers all body-contact areas, offering an unparalleled seating experience.
